Seattle Excellence Continuous School Improvement Plan (CSIP)

Cascadia Elementary

Purpose
The Continuous School Improvement Plan provides an overview of the school, student outcome goals and a brief narrative description on how the school plans to collaboratively meet these goals over time. It is intended to offer families and community audiences an overview of improvement work aligned to the strategic plan and written in language that is accessible by a diverse audience.

Introduction
WHEN WE FOCUS on ensuring racial equity in our educational system, unapologetically address the needs of students of color who are furthest from educational justice, and work to undo the legacies of racism in our educational system by doing the following:

- Allocating resources strategically through a racial equity framework
- Delivering high-quality, standards-aligned instruction across all abilities and a continuum of services for learners
- Creating healthy, supportive, culturally responsive environments from the classroom to central office
- Directly and consistently working in partnership with families and communities who represent students of color who are furthest from educational justice; and
- Making clear commitments and delivering on them

THEN we will eliminate opportunity and achievement gaps and every student will receive a high-quality, world-class education.

Seattle Public Schools Foundational Beliefs for Supporting Student Learning

In Seattle Public Schools, we understand that a shared vision of practice is essential to fostering the learning communities that each of our students and adults needs to thrive. This shared vision enables educators to work in concert to build their practice with a focus on student learning.

As such, we believe:
1) **Teaching is intellectually complex**, difficult, and demanding work, and the development of skillful teaching requires deep collaboration and non-defensive self-examination of practice in relation to student results.

2) **By collaborating with families in authentic partnerships**, we create a path for students to reach their highest potential, engaging with families as the first and lifelong teachers of students.

3) **"Intelligence" is not a fixed, inborn trait.** All children come to school with cultural capital and intelligence, and all have the raw material to learn rigorous academic material at high standards. Therefore, our work is to **build students’ academic mindset**

4) **By recognizing and cultivating the gifts and strengths of every student**, we can get each student to believe in themselves and deconstruct any of their own internalized stereotypes.

5) **Racism in our society exerts a downward force on the experiences and achievement of students of color that must be met with active countermeasures.**

Our commitment to these beliefs is the route to institutionalizing racial equity and fostering a context where each child receives what they need to develop to their full academic and social potential, and we make educational equity and justice the cornerstone of our system.

---

**School Profile**

Cascadia is a cohort school serving Highly Capable students (HCC) in grades one through five. Our school draws students from the North and Northwest regions of Seattle. We seek to inspire advanced learners to be independent thinkers who utilize their peers, teachers, and surrounding resources in their pursuit of learning. Our teachers work within a collaborative framework to infuse technology, science, math, language instruction, and the arts using project-based strategies to deliver the district-provided curriculum. The curriculum ranges from one grade-level to two grade-levels above other schools in the district. Our goal is to instill a life-long passion for learning in an emotionally supportive environment that will enable students to be stewards of the earth and contribute wisdom, compassion, and leadership in a rapidly changing world.

**Priorities and Measurable Goals**

**Elementary Focus Goal: 3rd Grade English Language Arts**

**Priority Goal:**
By June 2023, Cascadia will decrease by 1% the gap between the overall student body’s current performance on the ELA SBA (97%) and our students in special education programs current performance on the ELA SBA (90%).

**Safe and Welcoming Environment Goal**

**Priority Goal:**
By June 2023, 77% of all students in grades 1-5 will demonstrate a sense of belonging as measured by the school level survey.
High Quality Learning Experiences

Educate the whole child through high-quality instruction and learning experiences that accelerate growth for students of color who are furthest from educational justice, with an intentional focus on African American males.

To achieve educational justice, Seattle Public Schools (SPS) strives to provide safe learning environments, curriculum that incorporates a student’s life experiences and culture, and instruction delivered by high-quality, culturally responsive educators. Unfortunately, many students from certain ethnicities have not historically experienced equitable opportunities for all or part of their educational journey (including African and African American, Asian Pacific Islander and Pacific Islander, Latinx, and Native American students). These students are our priority – with an intentional focus on African American males.

School-wide Systems and Structures (MTSS)

MTSS offers the potential to create the alignment of systems necessary for all students’ academic, behavioral, and social success. In addition, MTSS promotes needed systematic change through intentional design and redesign of services and supports that quickly identify and match the needs of all students. MTSS is an integrated, comprehensive framework that focuses on CCSS, core instruction, differentiated learning, student-centered learning, and individualized student needs.

Our Multi-Tiered Systems of Support team (MTSS) is a comprehensive framework that focuses on State Standards, core instruction, differentiated learning, student-centered learning, and individualized student needs. Our team will be driven by assuring Tier I instruction in each content area is challenging and allows for high-level thinking skills to evolve. Tier II and Tier III strategies will continue to be the focus on learning that supports and further enriches the academic skills of our learners. The team will use several tools in place to collect data related to Tier II and Tier III interventions. Indicator 3a.1 - All students have access to standards-based core curriculum that is horizontally and vertically aligned – Continued use of CCC instructional materials, and participation in district science adoption K-5

Gap Closing Practices and Special Services

Seattle Public Schools is committed to eliminating opportunity gaps to ensure access and provide excellence in education for every student.

Delivering high-quality, standards-aligned instruction across all abilities and a continuum of services for learners is a core element of Seattle Excellence. Our Theory of Action is guided by the principles of “Targeted Universalism.” Our universal goal is that every Seattle Public Schools’ student receives a high-
quality, world-class education and graduates prepared for college, career, and community. Targeted Universalism holds that targeted and differentiated efforts are required to meet the needs of specific student populations, so every student meets the universal goal.

By focusing on students of color who are furthest from educational justice, especially African American males, we will make the greatest progress toward our collective vision. We believe that an intentional focus on African American males will benefit every student.

Students of color at Cascadia continue to demonstrate a high level of academic competitiveness at the same or higher level of the general student body. Our team uses the following strategies to identify students who may need additional support in ELA: on-demand writing, F & P writing, CCC checks, writing conferences, writing notebooks, student writing, ELL fact sheets, and climate survey. Students identified as needing additional support are referred to the support team. The team then makes recommendations for interventions and supports. Timelines are developed to monitor and report back regarding the outcomes of these structures.

We will be monitoring over the next three years, and through survey results, all students grades 1-5 to show a decrease in the gap between our overall student body's sense of belonging (73%) and our students who identify as multiracial (66%) by 1% each year by 2023. At the same time, our school will work to increase the overall sense of belonging of the whole student body to 80% by 2023.

Practices and Strategies

We will recognize and serve the academic, social, cultural, emotional, and behavioral strengths and needs of students, providing high-quality, culturally responsive instruction, curriculum, and social-emotional learning supports delivered by educators who set high expectations, so students graduate ready for college, career, and community.

The whole child's education goes beyond a focus on academic achievement. When educators focus on educating the whole child, students are healthy, safe, engaged, supported, and challenged. In Seattle Public Schools, this means that we appreciate and serve the academic, social, emotional, and behavioral strengths and needs of students, which we believe comprise the needs of the "whole child."

High-quality instruction is focused on student-centered learning and achievement, intentional about student engagement, and aligned to standards with consistent and appropriate feedback.
At its foundation, culturally responsive education means that students are in an environment where they have the individual safety and comfort to learn within a classroom that has a common culture that is respectful of all backgrounds.

Students of Color attending Cascadia are identified in several categories. Students who identified as African American and male have literacy and math scores at or above their peers in all academic areas. To continue this trajectory, we have instituted and will maintain small group instruction, academic interventions and when needed, use second dose/quick lesson review.

**Safe and Welcoming Environment**

Students thrive in healthy, safe, engaging, supported, and challenging environments in which they can learn to their full potential. Instruction must be high-quality, culturally responsive, focused, and aligned to standards for students to develop as independent learners.

Student voice should be evident, and students must be seen and celebrated for their authentic selves. Significant increases in academic outcomes for students furthest from educational justice are possible when social, cultural, emotional, and behavioral needs of students are met by educators that share an unconditional belief in the potential of every student they serve.

Cascadia currently has a very engaged parent population. However, families with children of color participate in school activities less frequently than their peers who identify as white. Our school will engage our families of color by increasing our staff’s capacity to provide a safe and welcoming environment through improving our understanding of trauma informed practice. In addition, we will create new opportunities for families and increase participation in our traditional events. We will monitor progress through exit tickets, monitoring attendance, and responses on our school climate survey and district climate survey (TBD).

**Inclusive and Authentic Engagement**

Partner with students, families, and communities who are furthest from educational justice by conducting inclusive and authentic engagement.

We will proactively and consistently work in partnership with students, families, and communities to identify needs, determine solutions, and support the implementation of the initiatives that will best meet the needs of students of color who are furthest from educational justice. We will use culturally responsive ways to engage so we build trusting relationships and empower the voices of those who can help us meet these needs.
Family and Community Goals

**Priority Goal:**

Our community engagement priority goal will have an intentional focus on our families of color. Cascadia staff reach 90-100% of families participating in at least one of our community events, programs, groups, or opportunities provided by our school by June 2023.

**Plans for Family Engagement**

We will achieve our goal through professional development strategies that engage children and families that are traditionally furthest away from educational justice. In addition, we will develop new events and opportunities for our community in conjunction with the PTA and the RET. These events will have an intentional focus on our families of color and concurrently improve overall positive responses from families on the SPS Climate Survey (“Welcoming and Culturally Responsive School Climate”) To implement this goal, we will utilize the following strategies:

1. Develop a streamlined and clear protocol and procedures for MTSS referrals and student data analysis
2. PD for staff on Trauma Informed Practices and Culturally Responsive teaching, as well as the 4 Pillars of Family Engagement
3. Partner with PTA to invite families of color to PTA, leadership, and classroom volunteering opportunities
4. Parent sit on the RET and work towards having a student sit on the RET
5. Participation of students and parents of color in book clubs
6. Encouraging parent participation in the PTA, onsite leadership, and volunteering in the classroom
7. Enrich the focus on the Community Culture Night
8. Ensure opportunities for assemblies and other social events that spotlight cultural rituals
9. Participate in appropriate events spotlighting communities of color
10. Create affinity groups (2E/Gender to start with)
11. At Cascadia we will use a variety of strategies to measure our success of our goal. Strategies will include exit slips from events, written feedback from families and students, visual displays created by participants attending these events.
